

A to Z, Come Sing with Me!

VERSE 1

A is for Astronauts, flying so high
B is for Black holes, so powerful and deep
C is for Comets with tails all aglow
D is for Dwarf planets, tiny and round
E is for Earth, our home shining bright

CHORUS

We're zooming through space, past the stars and the Moon,
in our little rocket ship, we'll be there very soon!
Count the planets as we go, one by one by one —
exploring all the universe is so much FUN!

VERSE 2

F is for Full Moon, glowing at night
G is for Galaxies, swirling away
H is for Hubble, our eye in the sky
I is for Ice moons, so frozen and bright
J is for Jupiter, biggest of all

CHORUS

We're zooming through space, past the stars and the Moon,
in our little rocket ship, we'll be there very soon!
Count the planets as we go, one by one by one —
exploring all the universe is so much FUN!

VERSE 3

K is for Kuiper Belt, icy and old
L is for Lunar landings, brave and bold
M is for Mars, so dusty and red
N is for Nebulas, colourful clouds
O is for Orion, stars in a row

CHORUS

We're zooming through space, past the stars and the Moon,
in our little rocket ship, we'll be there very soon!
Count the planets as we go, one by one by one —
exploring all the universe is so much FUN!

VERSE 4

P is for Pluto, so distant and small
Q is for Quasars, the brightest of bright
R is for Rings of Saturn, what a sight
S is for Shooting stars, blazing so fast
T is for Telescopes, pointing up high

CHORUS

We're zooming through space, past the stars and the Moon,
in our little rocket ship, we'll be there very soon!
Count the planets as we go, one by one by one —
exploring all the universe is so much FUN!

VERSE 5

U is for Universe, endless and grand
V is for Venus, so cloudy and bright
W is for Wormholes, tunnels through space
X is for X-ray stars, pulsing with light
Y is for Yellow dwarf, our own shining Sun
Z is for Zenith, the sky's highest height

FINISH

We're zooming through space, past the stars and the Moon,
in our little rocket ship, we'll be there very soon!
Count the planets as we go, one by one by one —
exploring all the universe is so much FUN!
(repeat once)
